1. **Project's Summarization: General Data Protection Regulation(GDPR)**

Currently Working: Jan,2018 to till now

GDPR MARKETING CONSENT: GDPR Requires us to introduce a new process to expand the number of channel and store the data in centralized database.

GDPR UIS SOC DELETE: GDPR Requires us to delete or anonymize customer data which is no longer necessary for the purpose for which it was collected. DLG maintains a record retention Schedule which defines the period that each type of data can be held. Any data older than this must be deleted or anonymized.

Key Role: Coding & Testing & Run Cast

Environment/Tools: EXPEDITOR, FILE AID/DB2, ENDEVOR, CAST-TOOL.

Technologies used: COBOL, DB2 & JCL, EASYTREV, GENER/OL, CICS.

Roles and Responsibilities:

- Cast Work, set up the Environment for the Application to be run on CAST.
- Ready the all report CED, AED, AAD to see the analysis and for rework.
- Working as a Software developer mainly responsible for Component design, Coding and Unit testing of various modules of the client application.
- Being at on-site my tasks included requirement gathering from client, analyzing the same and then sharing the information in coordination with offshore team.

2. **Project's Summarization: Nationwide Base Migration Exit (NBS Exit)**

Previously Worked: June, 2017 to Dec, 2017

> **NBS PHASE 3:** Nationwide have completed their home insurance tender process and have informed DLG will be moving their home insurance provision to RSA Insurance. The objective of this project I to complete a full migration of nationwide building society (NBS) home insurance book to another insurance provider.
> DLG ceased selling new business home insurance for NBS.
> DLG ceased renewing NBS home insurance policies.

> **Key Role:** Coding, Testing, Run Cast.

> **Environment/Tools:** EXPEDITOR, FILE AID, ENDEVOR, CAST-TOOL.

> **Technologies used:** COBOL, DB2 & JCL.

Roles and Responsibilities:

- Providing inputs to Application Design
- Component Design
- Design and build the code.
- Unit Testing.
- Preparing testing documents.
- Analyzing and resolving defects.
- Attending daily status update meetings for defects and incidents.
- Cast Work, set up the Environment for the Application to be run on CAST.
- Ready the all report CED, AED, AAD to see the analysis and for rework.

3. **Project's Summarization: CAST Software**

> In July 2017, DLG want to understand the Coding Standard, whatever Coding done by HCL itself they need a urgent scan on the basis of DLG all Brands like DLI, Churchill, Prudential, UKI inside it There are several insurance schemes Like Motor Home Pet Account etc.
> They tied with UK based company CAST Software for this.
